

Jaundré Smit

IT Professional

Dual Master's Student in Artificial Intelligence and Computer Science at JKU Linz with a professional background in full-stack software development . Expert in building scalable, data-driven architectures and optimizing enterprise-level databases for high-performance applications. Experienced in the end-to-end lifecycle of intelligent systems, from statistical data analysis and predictive modeling to the deployment of deep learning solutions . Currently maintaining an accelerated academic track to bridge the gap between robust computer science principles and advanced machine learning research

EDUCATION

NSC
Hoërskool Garsfontein, Pretoria
2021

BSc Information Technology
North-West University, Potchefstroom
2022-2024

Masters Artificial Intelligence
JKU, Linz
2025 WS - Present

Masters Computer Science
JKU, Linz
2026 SS - Present

SKILLS

Technical Skills

- **Programming & Frameworks:** C#, JavaScript, Python, ASP.NET, Vue.js, React
- **Databases:** SQL, Dynamic SQL, Stored Procedures, Database Optimization, Data Management
- **Data & AI:** Machine Learning, Data Science, Decision Support Systems, Data Structures
- **System Design & Architecture:** Full-Stack Development, System Development, UI/UX Design
- **Tools & Version Control:** Git, Visual Studio, Jupyter, Microsoft Office Suite, Blender

Professional Skills

- Problem Solving
- Project Management
- Team Leadership
- Communication
- Information Security Awareness

PROJECT EXPERIENCE

Online Food Ordering and Delivery System 2023

Created an online food ordering and delivery system using C#, Microsoft SQL Server and .Net Framework 4.8.1. Lead database administrator and full-stack system developer as well as responsible for managing the development team and project development methodology.

Online Education Platform, Siyafunda 2024

Developed Siyafunda, an online education platform using C#, ASP.NET, .NET 4.8.1, Microsoft SQL Server, javascript, HTML, CSS, and Azure for deployment. Led a team as project manager, lead developer, and database manager, delivering features like file sharing, online tests, gradebook, and timetables. Focused on performance, scalability, and security.

Data Analysis of Airbnb Listings in Cape Town 2024

Conducted a comprehensive data-driven analysis of Airbnb listings of the entire Cape Town area, using MySQL to identify top-rated areas for investment opportunities and python to create data visualizations using pandas, geopandas and matplot. The project focused on maximizing financial potential while understanding customer satisfaction. I was responsible for database design, schema optimisation, and SQL query development for extracting insights into rental income, occupancy rates, and amenities.

WORK EXPERIENCE

.Net Framework Tutor JUL 2023 - DEC 2023
North-West University
I tutored undergraduate students at the NWU-Potchefstroom campus in C#-based .Net framework.

Structured Programming Tutor JUL 2024 - Nov 2024
North-West University
I tutored undergraduate students at NWU-Potchefstroom campus in C++ based structured programming.

Software Developer NOV 2024 - AUG 2025
Signify Software
Develop and maintain enterprise web applications using C#, JavaScript, Vue.js, React, and ASP.NET. Design and optimize SQL and dynamic SQL queries, create stored procedures, and manage updates for one of South Africa's largest databases.
